

Anya Pawar

Notes from Mockup Review

Designer: Andriana

- I loved the color choices, I feel that they represent the overall ambiance of Narkanda very effectively.
- I enjoyed the type setting, margin, white spacing as well as the image choices.
- One recommendation would be to keep the margin above and below the top nav the same. Also, having a heuristic indicator of what page the user is on. This can be done through a different colored type, a shape indicator, an underline, etc.
- Overall, I think this is off to a really great start!
